Columbus Branch of Limbach Facility Services Moves to New Facility

Columbus, OH (May 26, 2009) – The Columbus Branch of Pittsburgh-based of Limbach Facility Services has relocated its operation to 822 Cleveland Avenue, Columbus Ohio 43201, just north of downtown. Limbach Columbus was previously located at 851 Williams Avenue in the Grandview Heights section of the city. The move stems from the 2007 purchase and subsequent redevelopment of the Williams Avenue building. At that time, Limbach began searching for a new site reflective of both their unprecedented growth and industry-leading stance in Green construction strategies.

The Cleveland Avenue facility contained numerous energy efficient elements, along with the expanded space to support their continued development. With the planned addition of at least 28 jobs, the Ohio Tax Credit Authority also approved a six-year, 45 percent tax credit for the location. Limbach Columbus is enthusiastic about the move and the many mutual benefits it will offer the area and the Company.

Since 1901, Limbach has provided mechanical and sheet metal services to clients in Pittsburgh, PA. Today, Limbach Facility Services has grown to a \$350 million national mechanical contractor, consistently ranked in the Top 15 of ENR's Top Specialty Contractors since 1964. With headquarters in Pittsburgh, Limbach maintains eleven (11) established branch locations throughout the US, including Ann Arbor, MI; Boston, MA; Columbus, OH; Detroit, MI; Los Angeles, CA; Palm Springs, CA; Philadelphia, PA; Pittsburgh, PA; Orlando, FL; Tampa, FL, Washington, DC.

Limbach's commitment is to be the first choice mechanical construction and service firm in the markets it serves, consistently exceeding the expectations of its shareholders, customers, investors, employees, and partners.

Limbach strives to bring its customers a wealth of industry experience, an established local presence, cost competitiveness, a strong service record, and innovative building solutions in energy efficiency and technology. Limbach's construction heritage delivers an expertise that only experience can provide. An inexorable drive for excellence attributes to Limbach's status as the nation's leading and fastest growing, privately held mechanical construction and service firm.
