MULLEN

► **Robert W. Mullen** has been named CEO of Structure Tone Inc., a construction firm based in New York City. Prior to joining the company, he had a 19-year tenure with Skanska USA Building, formerly Sordoni Skanska Construction Co. He held a number of executive positions there, most recently as chief operating officer responsible for the Northeast, Mid-Atlantic and Puerto Rico operations.

► Centex Construction, a subsidiary of Dallas-based Centex Corp. and provider of general contracting, at-risk construction management, design-build, preconstruction and turnkey services, has hired **Bill Blank** as division senior vice president and chief operations officer. He will be responsible for the operational aspects of the commercial, education, healthcare and corporate accounts businesses for the company, headquartered in Charlotte, N.C. Additional offices are in Atlanta and Raleigh. Blank had been president of Turner Construction of Indiana, a subsidiary of Turner Construction Co.

► Houston-based Universal Project Management Inc., a project management firm serving power and petrochemical industries, has named **Thomas Crum** as CEO. Most recently, he was with Kellogg Brown & Root Services, where he held positions as chief operating officer in the Americas and Middle East, with full responsibility for construction, engineering and operations for all KBR's U.S. government contracts.

CRUM

► Rudolph and Sletten Inc. General Contractors, a Foster City, Calif.-based firm, has named senior management staff promotions in its Northern and Southern California locations. **Rich Millitello**, who previously held the title of vice president, has been elevated to executive vice president of operations in Northern California. **Martin Sisemore**, a 22-year firm veteran, has moved up to chief operating officer, overseeing operations in Southern California. He had been senior vice president. **Dennis Giles**, formerly executive vice president of operations in Northern California, has been named chief operating officer of the San Diego office. **Mike Mohrman** has been named vice president of estimating in the Fos-

ter City office. He was assistant chief estimator. Also, **Mike Castillo** and **Lofton Moore** have advanced to vice president of operations, from project executives in Southern California.

► **Jeff Raduechel** has assumed the title of president/principal at Panattoni Construction Inc., a design-build general contractor based in Sacramento, Calif. He previously was executive vice president of eastern operations and will remain in the Chicago office. Raduechel joined the firm in 2002 to lead the Chicago office and establish the firm's base operations in other eastern markets. Under his direction, Panattoni has opened six Midwest/Eastern offices with three additional markets slated to join those in 2005.

RADUECHEL

► Limbach Facility Services LLC, a mechanical specialty contract and service firm based in Pittsburgh, Pa., has announced the following changes in its management team. **Charlie Boyd** is executive vice president of special strategic projects and sales. He formerly served as president of Limbach's Central Region in Pittsburgh. **Craig Montgomery** becomes executive vice president of the Southeast region. Previously, he was president and CEO of Harper Limbach in Orlando. **Hal Ruffner**, who is now serving as executive vice president of the Central region, had been executive vice president and branch manager of the Detroit office. **Dennis Sacco**, formerly executive vice president and branch manager of the Boston office, becomes executive vice president of the Northeast region. The management team also consists of **Steve Wurzel**, executive vice president of the West Coast region and **Charlie A. Bacon**, president and CEO.

► **John Bremner** has joined INTECH Construction Inc., a Philadelphia-based general contractor and construction manager, as senior vice president of preconstruction. He previously worked for Shoemaker Construction Co., a West Conshohocken, Pa.-based construction and general contractor, serving as executive vice president of the firm and vice president of its preconstruction division.

► Howard/Stein-Hudson Associates Inc., a transportation engineer, planner and consultant in Boston, named **Thomas A. Stokes** as principal. He was director of roadway design and civil engineering.
